## IS CLASSICAL LITERATURE STILL RELEVANT?

#### **Performance Task**

**Group Problem Scenario:** Students constantly complain that classical literature does not relate to their lives. Your task is to investigate that issue and to prepare a presentation of research results and a position statement that proves one of the four major works (*Anthem, 1984, Julius Caesar, Antigone*) in question remains as relevant in the 21st century as they were in the time period in which they were created. The project will include

- 1) a MOVIE poster to encourage the reading of the work with the greatest "fit," the piece that most strongly addresses the contemporary world of adolescents,
- 2) a POSITION PAPER arguing for the work's relevance, and, therefore, its classical status, and
- 3) PRESENTING your poster and paper to the class.

Students will divide into 4 groups, at least 4 must be in a group. Each group will argue for a work on literature in a position paper. Each group will present on a different day. Each group has 1/2 a class period to present.

Presentations will be the week before final exams. If you are absent, you earn a zero.

#### By what criteria will student products and performances be evaluated?

- Links between teen interests and literature (*Anthem, 1984, Julius Caesar, Antigone*) are evident. This project required the synthesis of information from different types of sources (major texts, research, and student interests).
- Text provides evidence of thoughtful and warranted revision to improve content, structure, and detail.
- Presentation correctly employs conventions of Standard English.
- Poster effectively ties the literature to contemporary society and promotes teenagers to read the work
- Each student performs his role in the writing of the position paper.
- Each student provides thoughtful and warranted evaluative comments praise, question, polish.
- Follow proper MLA format in position paper using Research Paper Style Sheet.

#### WORD OF CAUTION

CHOOSE YOUR GROUP MEMBERS WISELY. This is a group project. Most of this project's grade is determined on a group basis. If one member of your group leaves something at home, the entire group loses all of the points for that section.

#### BEHAVIOR:

Be on your best behavior during ALL presentations, or you and your group will lose points from your total score (even if you have already presented.)

#### RATE THE GROUP AS A WHOLE!!!!

# **CONFLICT Group Project Grading Rubric** (complete BEFORE you submit for grading)

Part I: Evaluate the group as a unit with this section of the evaluation tool. Write the score in the score box. Complete this BEFORE your group presents or points will be deducted, and the teacher will determine your grade.

Group Cooperation	We did most of the work by ourselves, we talked a little among our group members	We worked together most of the time, sharing information regularly	We worked together so that everyone contributed to the final project	Everyone worked together using his or her abilities and knowledge to make the project come together
Distribution of Group Tasks	Some group members did not complete any of the work	Everyone had a job to do but some jobs were incomplete	We divided up and completed the work equally	Work was shared fairly according to the abilities and interests of the members
Group Leadership	We had no leader so we just did our own thing	No one person was a leader so we usually helped each other get the job done	One or more persons took a leadership role and gave good directions that kept us going	We had a leader who helped us organize and stay on task until the job was complete
Communication among group members	We only talked when we thought we needed to, but received little feedback	We talked about what we were doing	We usually asked each other for help and showed our work to each other	We talked all the time and shared our work for group feedback
Individual Participation	A few people tried very hard, but most didn't do much	Each person did some work and tried to do a fair share	We all seemed to find our place and do what was needed	Everyone did a great job, I would work with these people again
Listening to other points of view	We usually listened to what others were saying but some either did not share ideas or argued	We usually listened to each other and tried to use what they said in the project	We listened while others talked, we learned about different viewpoints, and used some of that information in the project	Everyone listened to each other a lot, and used what we heard to improve our work and the whole project
Showing respect	No one was courteous and opinions were not valued	Some were courteous and some opinions were valued	Most were courteous and most opinions were valued	All were courteous and valued each other's opinions

I <u>require</u> a notation of what each person did in the group, the goal of the group, how close--in your estimation--the group came to achieving results, and evidence to support your estimation. Write a paragraph summary of the good, the bad, and the ugly. Write on the back if necessary or on another sheet of paper. Without this notation, your score will be reduced.

40 points

In order to receive the maximum number of points for this part of the project, you must identify in proper MLA citation format at **least FIVE sources**. These sources must include at least two reliable, relevant, and reputable on-line sources, at least one book, and at least two personal interviews. These SOURCES must be typed on a separate sheet of paper titled Works Cited and submitted with your project. Follow ALL MLA guidelines for this page, including but not limited to the following: correct citation, double spacing, alphabetical order, correct punctuation, and correct number of sources.
